Standards for quality life

REUSABLE SANITARY TOWELS

What is a standard?

A standard is a document, established by consensus and approved by a recognized body that provides for common and repeated use, rules, guidelines or characteristics for activities of their results, aimed at the achievement of the optimum degree of order in a given context. Standards are based on the consolidated results of science, technology and experience, and aimed at the promotion of optimum community benefits. They serve as guides for the production of goods, the provision of services and provide the basis for trade transactions.

Gazetted Standards for Textiles-Reusable Sanitary Towels

KS 2925:2020 Kenya Standard-Textiles-Reusable Sanitary Towels-Specification-First Edition

The Standard outlines absorbency requirements, fastening mechanism, comfort and feel, skin sensitivity and odour, care and user instructions.

The Standard retains the desired features of reusable pads including no leakage, no chafing, comfortable to wear, good fit, stay in place, no odor, no noise, no humidity, high level of hygiene and easy to use.
