

KEBS Standards Work Programme Bulletin

[Vol.22, No. 2, July 2014]

Nairobi, Republic of Kenya

The Kenya Bureau of Standards (KEBS) is the national standards organization of the Republic of Kenya.

The technical standards work of KEBS is carried out by technical committees grouped under technical departments. The results of the KEBS technical standards work are published as Kenya national standards. It is the policy of KEBS to adopt other national, regional and international standards when these are found to be applicable to the Kenyan situation. A full list of all KEBS standards is given in the *Catalogue of Kenya Standards* which is issued biennially and is updated by an annual supplement to the catalogue.

During the development of Kenya Standards, documents are circulated for study within the technical committees or sub-committees. These documents pass through a number of stages before they can be approved as Kenya Standards. This procedure is designed to ensure that the final result is acceptable to as many interest groups as possible.

The *KEBS Standards Work Programme Bulletin* contains a list of all the standards projects in progress and is published twice a year, in January and July.

HOW TO USE THIS PUBLICATION

Standards projects

The main list of draft Kenya Standards Projects is established in Technical Committee (TC) order. The list begins with 01 TC 01: Cereals and pulses. All draft Kenya Standards are listed in numerical order by KS number.

Reference

It should be noted that the KS number given in the left hand column is used as reference to the draft standard under development and that each draft Kenya Standard carries the same number through all the stages. The same number is retained when the document becomes a Kenya Standard.

Abbreviations used

The following abbreviations are used in this publication:

CD	– Committee Draft
ED	– Edition
ICS	– International Classification for Standards
ISC	– Industry Standards Committee
KEBS	– Kenya Bureau of Standards
KS	– Kenya Standard
NA	– Not Applicable
R	– Referred back for re-drafting
SAC	– Standards Approval Committee
SPC	– Standards Projects Committee
TA	– Target Date
TC	– Technical Committee

Target date (TA)

A target date shows the date when the document is expected to be published as a Kenya National Standard.

The target date is presented in four figures. For example, the indication 14/07 means that the document is expected to be published as Kenya Standard in July 2014.

Edition (ED)

The column ED indicates the edition of the Standard currently being developed under this project.

Title

The title of each proposed standard is given in English.

ICS

Main subject areas (e.g. agriculture, civil engineering, chemical engineering etc.) and TC subject fields such as cereals and pulses, stimulants, horticultural fresh produce, etc. are given the ICS (International Classification for Standards) number(s) under which the subject matter is classified.

The outline is given on page iv.

Stage number and date

To allow the monitoring of project development in a systematic way, the following table shows a numerical representation of the principal steps involved.

Stages of Kenya Standards development:

Stage 0	Preparatory stage
Stage 1	Proposal stage Justification of a new work item in Standards Projects Committee (SPC)
Stage 2	Preparation of preliminary draft and TC discussions
Stage 3	Public review stage and discussions
Stage 4	Balloting stage
Stage 5	Approval Stage Standards Approval Committee (SAC)
Stage 6	Publishing stage

A project is registered as having reached a particular step when the action or decision indicated at that point has been taken. The stage date is the date on which the action or decision has been taken.

For example, stage date 3/14/07 means that a preliminary draft preparation (See: 3 in the above table) for the standard in question went for public review in July 2014.
